Standard features

- Coin change machine**
Accepts all coin denominations and dispenses change automatically.
- Printer for refund ticket**
An indispensable tool, the printer is used for the refund ticket if change is missing. The receipt dispensed allows the amount to be credited back to the customer.
- Double door**
You can load your vending machine from the front and from the back.

NEW

- The Smart Dashboard**
Modify prices, images and descriptions, create discounts. Create your communication with your customer with images and videos, all from the comfort of your own home.
- Security lock**
Our vending machines have a double security lock on the front door and two additional locks on the back door.
- Banknote reader**
Accepts 5€, 10€, 20€ and 50€

Optional features

- Customised graphics**
In the front door you can display your logo and colours.
- Credit card reader**
The reader accepts credit, prepaid and private cards, reads contactless, chip or magnetic technology.
- European ID reader**
reads the identity cards of major European countries. Prevents minors from buying from the vending machine.
- Illuminated canopy**
Recommended for weather protection, customisable with name.
